

Nominations are sought for the 2020 Simon Memorial Prize.

The Simon Memorial Prize, established in 1957, commemorates the outstanding contributions to science of Sir Francis Simon. The prize is an international prize with no restrictions on nationality. It is awarded for distinguished work in experimental or theoretical low temperature physics.

Nominations should be sent to r.haley@lancaster.ac.uk by **November 15, 2019**, together with a supporting statement describing the achievements for which the prize should be awarded. Letters supporting the nomination should be submitted together with the nomination. Selection policy is to avoid presenting the prize to previous winners of the Simon Memorial Prize or the Fritz London Memorial Prize.

The prize presentation will take place at the 29th International Conference on Low Temperature Physics (LT29), Sapporo, August 2020.

Professor Richard Haley
Secretary, Simon Memorial Prize Selection Panel

Department of Physics
Lancaster University
Lancaster LA1 4YB
United Kingdom

Recent winners:

Louis Taillefer (2017)
Peter Wölfle (2014)
Sergey V. Iordanskii and Nikolai B. Kopnin (2011)
Yasunobu Nakamura and Jaw-Shen Tsai (2008)
Grigory Volovik (2004)
Giorgio Frossati (2001)
George R. Pickett and Anthony M. Guenault (1998)
Alexander F. Andreev (1995)
